

Pharmacy Program Updates: Quarterly Pharmacy Changes Effective April 1, 2022 – Part 1

Posted January 27, 2022

IMPORTANT PHARMACY BENEFIT REMINDERS

Jan. 1, 2022 is the start of a new year and renewed or new health insurance benefits for most Blue Cross and Blue Shield of Illinois (BCBSIL) members. As you see your patients, please consider the following reminders:

- Members' benefits may be based on a new drug list when their plans renew in 2022.
- Discuss your patients' benefits during an office visit or confirm their benefits by calling the number on their ID cards.
- Review the prescription drug list before prescribing medications.
- If your patients need a coverage exception or prior authorization request in order to take a medicine that may be excluded from coverage or included in a utilization management program, please visit the Prior Authorization/Step Therapy Programs section of our provider website at bcbsil.com/provider for the form and more information.

Treatment decisions are *always* between you and your patients. Coverage is subject to the terms and limits of your patients' benefit plans. Please advise them to review their benefit materials for details.

DRUG LIST CHANGES

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) will be made to the BCBSIL drug lists. Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes. **Changes effective April 1, 2022 are outlined below.**

The Quarterly Pharmacy Changes Part 2 article with more recent coverage additions will also be published closer to the April 1 effective date.

Please note: The drug list changes below do not apply to BCBSIL members on the Basic Annual, Multi-Tier Basic Annual, Enhanced Annual, Multi-Tier Enhanced Annual or Performance Annual Drug Lists. These drug lists will have the revisions and/or exclusions applied on or after Jan. 1, 2023.

If you have patients with an HMO Illinois® or Blue Advantage HMOSM plan, these drug list revisions/exclusions may not apply to their pharmacy benefits, administered through Prime Therapeutics, until on or after Jan. 1, 2023.

DISPENSING LIMIT CHANGES

The BCBSIL prescription drug benefit program includes coverage limits on certain medications and drug categories. Dispensing limits are based on U.S. Food and Drug Administration (FDA) approved dosage regimens and product labeling. **Changes by drug list are listed on the charts below.**

Please note: The dispensing limits listed below do not apply to BCBSIL members on the Basic Annual or Enhanced Annual Drug Lists. Dispensing limits will be applied to these drug lists on or after Jan. 1, 2023.

BCBSIL letters all members with a claim for a drug included in the Dispensing Limit Program, regardless of the prescribed dosage. This means members may receive a letter even though their prescribed dosage doesn't meet or exceed the dispensing limit.
